

# An Introduction to Statistical Learning

(Summary by *Pablo Vivas*)

Gareth James, Daniela Witten, Trevor Hastie & Robert Tibshirani

January 13, 2020

- 1. Introduction**
- 2. Statistical Learning**
- 3. Linear Regression**
- 4. Classification**
- 5. Resampling Methods**
- 6. Linear Model Selection and Regularization**
- 7. Moving Beyond Linearity**
- 8. Tree-Based Methods**
- 9. Support Vector Machines**
- 10. Unsupervised Learning**
